Astonishing Success.
It is the duty of every person who has used Boschee's German Syrup to let its wonderful qualities be known to their friends in curing consumption, severe coughs, croup, asthma, pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case and we consider it the duty of all druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the German Syrup cannot be too widely known. Ask your druggist about it. Sample bottles to try, sold at 10 cents. Regular size, 75 cents. Sold by all druggists and dealers in the United States and Canada.

Facts about Grant.
Throughout the war he never received a wound.
His mother died over a year ago. His father has been dead several years.
One of his requests was that he should be allowed to sit up and not die in bed.

He leaves two sisters—Mrs. Cramer and Mrs. Corbin—who live in Jersey City.
His last public speech was at Ocean Grove, a year ago, before the Christian Commission.

He always disliked doctors and resented their attentions as much as possible to the last.

He leaves three sons and one daughter—Fred, Buck, Jesse, and Nellie, all married—and eight grandchildren.

He never drank to excess, but was fond of an occasional drink of good liquor, and brandy was his favorite beverage.

His mother was an enthusiastic Methodist and believed in personal holiness and the nearness of the second coming.

General Grant's most intimate friend was George W. Childs, of Philadelphia, whose house he made his home whenever in Philadelphia.

Among the portraits in George W. Childs' office is one of General Grant and the Emperor of China, taken seated together and arm in arm.

As far back as February last he wrote to Mr. Childs that whenever he took a drink of water it felt "as if hot lead was going down his throat."

Until given over to the government all the souvenirs of his European trip were at the office of George W. Childs, to whose custody he confided them.

The two greatest omissions of his life received by General Grant were those tendered in Philadelphia before he started upon his trip around the world and upon his return.

Senator Jones to Speak in Oak land
The Committee on Literary Exercises of the Fourth of July celebration in Oakland, Cal., has selected Senator John P. Jones, of Nevada, to be the orator. Senator Jones has accepted the invitation, provided he is not called away before the day of the celebration.

Merit Will Tell.
Was never better demonstrated than when "Fryer's Abietine Remedies" were awarded diplomas at the late California State Fair at Sacramento and at the Mechanics Institute at San Francisco. W. Pinniger is agent for these celebrated "Abietine Remedies" and he offers to return your money if they do not give satisfaction. In buying, be sure the fac-simile signature of D. F. Fryer is on each, as none are genuine without it.

Happiness and Health.
Are important problems, the former depending greatly on the latter. Everyone is familiar with the healthy properties of fruit, and no one can afford to be sick and miserable while the pleasant California concentrated liquid fruit remedy, Syrup of Figs, may be had of our enterprising druggist, Wm. Pinniger, Reno, Nev.

The best healing and purifying remedy in the world for piles, old sores, ulcers and all eruptions of the skin. Price, 25 cents. Sold by W. Pinniger, Reno, Nevada. All genuine abietine preparations bear the fac-simile signature of D. F. Fryer.

An End to Bone Scraping.
Edward Shepherd, of Harrisburg, Ill., says: "Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. I have had a running sore on my leg for eight years; my doctors told me I would have to have the bone scraped or leg amputated. I used, instead, three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and my leg is now sound and well." Electric Bitters are sold at 10 cents a bottle, and Bucklen's Arnica Salve at 25 cents per box by S. J. Hodgkinson & Co's.

Unnecessary Misery.
Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason that no one likes to take the medicines usually prescribed. Hamburg Figs were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all druggists. J. J. Mack & Co., proprietors, S. F.

A Sea-Sick Passenger.
On the ocean cares little about a storm. He is positively indifferent whether he is washed overboard or not. But, set right by a wineglassful or two of Hostetter's Stomach Bitters, he feels renewed interest in his personal safety. This fine corrective neutralizes in brackish water—often compulsorily drunk on shipboard, to the grievous detriment of health—the pernicious impurities which give rise to disorders of the stomach, liver and bowels. To the mariner, the tourist, the Western pioneer and miner, the Bitters is invaluable as a means of protection against malaria, when its seeds are latent in the air and water. To the effects of overwork, mental or manual, it is a most reliable antidote, and to the debilitated and nervous, it affords great and speedy relief and vigor.

Good Results in Every Case.
D. A. Bradford, wholesale paper dealer of Chattanooga, Tenn., writes that he was seriously afflicted with a severe cold that settled on his lungs; had tried many remedies without benefit. Being induced to try Dr. King's New Discovery for consumption, did so and was entirely cured by use of a few bottles. Since which time he has used it in his family for all coughs and colds with best results. This is the experience of thousands whose lives have been saved by this Wonderful Discovery. Trial bottle free at S. J. Hodgkinson & Co's Drug Store.

MONDAY MAY 23, 1887

The State Immigration Bureau is now busy collecting data relative to the resources of Nevada, which is to be compiled, published in proper shape and scattered broadcast over the country. Much valuable information will be incorporated in it, and beneficial results will follow its distribution. Fine advantages amount to naught unless they are shown up and given to the world. It is no wonder that California is having a boom. That State has been freely advertised by its enterprising people, all over the United States. No expense has been spared to show up its agricultural resources, and now they are reaping the benefit of the labor and money they thus spent. Nevada is well-known, but merely as a mineral producing State. The impression is wide-spread that our mineral resources are our main-stay, and that when our mines are worked out we will pass into obscurity. This idea must be completely rooted out, and there is but one way to do it—that is, by giving the world a fair representation of facts. We have resources that are far superior to our mining industry, even in its palmiest days—resources that are practically undeveloped, but which will, with proper encouragement, bring endless prosperity to our people. We freely admit that we cannot produce tropical fruits, crocodiles, boa constrictors, yellow fever, earthquakes and other luxuries incident to a warmer climate, but what we do produce will equal, or excel, similar products produced in any other locality on earth. A complete catalogue of our productions should be carefully prepared, the amount of yield per acre, the manner in which the soil is cultivated, and our glorious climate, should all be written up and brought to the notice of those in the Far East who contemplate migrating to the Pacific Coast. Such a course of action is now imperative, and everything should be done to aid our Immigration Bureau in this work. The newspapers of Nevada can gather valuable information for the Bureau, which will materially lessen the labor attached to the work. Stock men and farmers can furnish the most interesting data, and any correspondence from them that will aid in this great and good work is cordially invited. If all those who are in a position to assist in this matter will do their part the work will be a complete success, and we will then be known as we are, and ought to be.

There was a time when those who had an inclination to adopt the stage as a profession started from an obscure position in life, and by hard study and cultivated talent won a place in the theatrical world. This is all changed now. It seems that a reputation of some kind is necessary before one makes an appearance behind the foot lights. A social scandal or a first-class divorce suit takes the best. It used to be from the studio to the stage, but it is now from the court-room. Mrs. Potter was unlucky in this respect. Her only recommendation was reading "Ostler Joe." Verona Baldwin is now hankering after stage notoriety. She will take. Her success will be complete, and wealth will be showered upon her. Verona is sensible and understands just what will suit the American people.

Our friend Skillman, of the Eureka Sentinel, is out of luck. Less than two years ago he was appointed Internal Revenue Collector for the District of Nevada. The Administration, with its usual disregard for Nevada's Federal offices, has issued an order annexing that portion of the District lying in Nevada to the Fourth District of California, and that in Utah to the District of Montana. Where Nevada's Federal offices are not being wiped out of existence they are being filled by non-residents. This may be Democratic doctrine; it is not American.

TO-DAY'S NEWS.

The President Invited to St. Louis.

A CORDIAL RECEPTION.

Hong Di, the Chinese Murderer, Captured.

AN APPEAL FOR AID.

The Thistle Rescues Shipwrecked Sailors.

O'Brien Cordially Received.

NIAGARA FALLS, May 23. To-day a delegation from Rochester, headed by Dr. W. R. Casey, a prominent National League man, called upon O'Brien. From Buffalo there came Father Patric Cronin, editor of the Catholic Union and Times, and James Money, ex-President of the Irish National League of America. Many visitors from Hamilton and other points called, headed by several well known citizens. Clergymen called upon O'Brien, who remained in his room all day. O'Brien said to correspondents that, although exhausted and scarcely able to speak above his breath, he was determined upon going to Hamilton to-morrow. His friends are alarmed at this decision, not because of fear of another attack is considered extremely probable, but because the journey itself, and the effort of making another speech are likely to overpower him and imperil his life. It is said by some of his enthusiasts here, that a small body-guard of stalwart men will be organized in Buffalo and will accompany him. O'Brien, however, does not approve of this as he does not think there will be need for such a step. His friends have a positive opinion to the contrary, but they will do nothing without his sanction. He goes from Hamilton to Montreal, where an open air meeting will be held and a torchlight procession organized to escort him through the principal streets of the city.

Disabled at Sea.

NEW YORK, May 21. Early this afternoon, about 100 miles east of Sandy Hook, the steamship Eturia, of the Cunard line, bound in, and which arrived here to-night, sighted four steamships beached. They were the Celtic and Britannic, of the White Star line, the British Queen sailing on the Inman line, and another not identified. They were steaming westward at a low rate of speed. The Celtic was disabled, her stern being stove in and knocked to one side, and the other vessels were assisting her.

The President Invited to St. Louis.

WASHINGTON, May 23. A delegation of 25 representatives of the business interests and all branches of the municipal government of St. Louis, waited upon the President to-day and invited the President and Mrs. Cleveland to visit St. Louis during the Grand Army encampment in September. The President expressed his appreciation of the compliment extended, and accepted the invitation. The members of the Cabinet have also been invited to be present.

A Collector Sick.

CHICAGO, May 23. A. L. Blake, Collector of Customs at Port Townsend, who was attacked with illness while passing through this city last Friday, and taken to the insane department of the county jail under the belief that he was demented, has recovered sufficiently to be conscious of his surroundings. Hopes of his recovery are entertained.

Forest Fires Still Raging.

DETROIT, May 23. Specials to the Journal from the upper peninsula report forest fires still raging; from all points of the peninsula come reports of continued drought, and danger to many towns is as evident as at any previous time. At last reports Ironwood was threatened, but the wires are down and no news has been received since last night. Unless a heavy rain comes soon much damage is feared near Negaunee.

A Wisconsin Village Destroyed by Fire.

SUPERIOR, Wis., May 23. The village of Hawthorne, 18 miles south of here, is entirely destroyed by the fire which is now sweeping through valuable timber in that vicinity. No lives lost.

An Appeal for Assistance.

CHICAGO, May 23. Mayor Roche to-day received a telegram from the Mayor of Nanimo, B. C., asking aid to alleviate the distress caused by the recent colliery disaster.

Temperance in New York.

NEW YORK, May 23. The Blue laws were strictly enforced again to-day. The scenes of blue Sunday were re-enacted at the hotels, most of which were deserted.

A Quarantine Proclamation Issued.

SANTA FE, N. M., May 23. Governor Ross issued a quarantine proclamation to-day, as a safeguard against pleuro pneumonia.

A Brave Conductor.

WILKESBARRE, Pa., May 21. A daring and notable act, in which the hero, a railroad conductor, lost his life to save a young woman and her

child, is the talk of the town to-day. A freight train, in charge of Conductor Michael Mammond, had come down from Green Ridge, on the Delaware and Hudson road, and was backing into a switch, when Mammond, who was in the caboose, saw a young woman, with a child three years old, walking down the track in front of the train. He ran to the end of the caboose and called to them. The woman turned, but, seeing the train approaching, seemed paralyzed with fear, and was unable to stir. The train was rapidly nearing her, and seeing that it was the only chance of saving her life, the brave conductor leaped from the caboose, though it was moving quite rapidly, and running ahead reached the woman and child in time to push them clear of the track. But his noble act cost him his life. Before he could recover himself and jump to a safe place, the train was upon him. He was struck and knocked under the wheels, and instantly killed. His body was cut to pieces. Mammond was about 30 years of age, and leaves a widow and three young children. They are in poor circumstances.

Jake Sharp on Trial.

NEW YORK, May 23. The work of selecting a jury for the trial of Jake Sharp was continued to-day. Eleven jurors were in the box, the fourth seat being vacant. On challenge by the defense, Herman Lugel was accepted for the vacant chair. John E. Parsons, of the defense, said: "We suspend our peremptory challenges here, to await the course of the prosecution." "We are content with the jury as it is now constituted," said His Honor, with a falling inflection. "No, we make no statement on that point, we simply suspend." "Well, I'll swear the jury," said Judge Barrett. This caused a momentary panic among Sharp's counsel, but they were relieved after a moment for the prosecution, who resumed the challenge for the people, and challenged the eighth juror, Frank G. Minshall. The work of filling his place then began.

Protection for O'Brien.

NIAGARA FALLS, May 23. Mr. O'Brien arose this morning so weak as to be almost unable to stand. He, however, insisted on leaving for Hamilton by the noon train. Toronto is not more than 40 miles from Hamilton, and it is understood to-day that bodies of Orangemen intend to make a descent from larger towns upon Hamilton and join in with the local Orangemen in making an attack on O'Brien's life. The Nationalists will be organized by this time, and O'Brien approves of the idea that they should be, and that outside aid should be sent to Hamilton, which will now probably be done by his friends in Buffalo and other Irish centers.

Train Robbers Sentenced.

CHICAGO, May 23. A Morris special says: Schwartz and Watt, the Rock Island train robbers, were to-day sentenced to imprisonment for life. Leave was granted to the prisoners to file a bill of exceptions by August 23d.

A Will to be Contested.

MILWAUKEE, Wis., May 23. It is currently reported that the widow of the late Alexander Mitchell will contest his will.

FOREIGN DISPATCHES

Parnell's Health.

LONDON, May 21. Mr. Parnell's health causes the greatest anxiety to his friends. He looks extremely indisposed, but speaks cheerfully and says he has hopes of recovering soon from his illness, which is the result of continued confinement indoors, from bad weather and a severe cold. The Thistle Rescues Shipwrecked Sailors.

WESTERN DISPATCHES

Hong Di, the Chinese Murderer, Captured.

CHICO, Cal., May 23. Hong Di, the murderer of Mrs. Billo, at St. Johns, Colusa county, was caught yesterday by L. M. Schubert, a sewing machine agent, about ten miles below Chico. THE INSANE ASYLUM.

The Decision of the State Board of Commissioners After Examining Into the Charges Preferred Against Dr. Bishop as Superintendent of the Institution.

The following is the decision of the Commissioners for the Care of the Indigent Insane of the State, after hearing the testimony in the investigation of the charges of cruelty to patients, mismanagement, etc., preferred against Dr. Bishop as Superintendent of the Nevada Insane Asylum. The GAZETTE is glad to know that the entire testimony in the case, as taken down by the official reporter, is to be printed in pamphlet form and distributed among the people of the State, inasmuch as there is a decided conflict of opinion in the matter, and some of the papers that published reports during the investigation are charged with having been partial.

STATE OF NEVADA. OFFICE OF THE COMMISSIONERS FOR THE CARE OF THE INDIGENT INSANE OF THE STATE. CARSON CITY, May 21, 1887. The Board of Commissioners for the Care of the Indigent Insane of the State, having fully investigated the charges preferred by Wm. Thompson against Dr. Simeon Bishop on the instant, and having patiently heard the testimony, pro and con, of 33 witnesses, duly sworn and examined, the respective parties having at all stages of the examination been represented by able and efficient counsel, and the Board having now fully considered the said charges and the evidence rendered on the hearing thereof, does now consider and decide that said evidence does not sustain the charges, or any of them.

The interest manifested by the general public in this investigation shows how sensitive our people are as to the care of the most unfortunate wards of the State, and justly so. The Board, believing that the entire people of Nevada are not only interested, but feel a deep interest in this matter, and that the testimony in full, as given on the hearing, should be presented to them in pamphlet form, have made their preliminary report, and decided to have the proceedings had on the hearing, including all the evidence adduced, printed for general distribution among the people at the earliest possible date.

GEORGE TULLY, Treasurer.

The New Race Track.

The State Agricultural Board met Saturday afternoon to consider, among other matters, the advisability of purchasing eighty acres of land on the north side of the Truckee river for the new race track and fair grounds. The meeting was presided over by C. C. Powning and a committee consisting of Messrs. Bailey, Evans, Leete and Sheriff Flint was appointed to select and make arrangements for the purchase of the land. The location selected is on the English Mill property and the consideration \$14,000. The Land Company demanded \$5,000 down and the second payment to be made two years hence with interest at 8 per cent. per annum. The committee are satisfied with the terms with the exception of the amount to be paid down. They are willing to pay \$2,000 down, but do not feel able to meet the \$5,000 payment. It will require quite an outlay to place the grounds in proper shape, and as there is not much money in the treasurer's hands for them to go on, this is regarded as a fair proposition and will no doubt be accepted. Those who understand such matters claim that the ground on the site selected is much better adapted for a race track than that where the old track is located and that the fair grounds can be made much more attractive. The change is universally favored by the citizens of Reno and will give general satisfaction. If the terms of the committee are accepted (and they certainly will be) the work of improving the grounds will be commenced as soon as possible, and everything will be placed in fine shape before the State Fair takes place.

Carson and Heaven.

Jim Townsend says, "There is but one sheet of paper between Carson and heaven to-day."—Tribune.

Which sheet is it? Carson newspaper men have heretofore considered that there was just three sheets between the capital and journalistic paradise.

Off for Idaho.

Governor Stevenson, accompanied by his wife, departed Saturday evening for Idaho, there to visit his brother, who is Governor of the Territory. Years have passed since the brothers have met, and now they will shake hands as the governors of Nevada and Idaho. It will be an interesting meeting for them, and they will enjoy listening to each other's recital of what they have passed through during a long separation, but when annexation is broached look out for a gubernatorial war.

Deed Filed.

The deed from Samuel Brown to Messrs. Foley and Russell & Bradley, transferring the English Mill property, was filed in the Recorder's office on Saturday, and Mr. Brown received a check for the full amount of the purchase price. This is the heaviest transaction of real estate in a single transaction that has ever taken place in Reno, and through it three of Nevada's heaviest capitalists have become identified with our town.

PERSONAL.

Pete Marker came in from Lovelock Saturday night.

S. S. Sears, of Elko, was registered at the Depot Hotel yesterday. Judge T. P. Hanley will deliver the oration in Carson on Decoration Day.

Judge Denson, of Sacramento, passed through on the west-bound overland on Saturday night.

Lieutenant Governor Davis is now looking after the gubernatorial business at the State Capitol.

D. O. Mills, the railroad magnate, passed through on the overland Saturday night for San Francisco.

Mrs. Benham, mother of Mrs. C. M. Fassett and Mrs. J. F. Alexander, returned Saturday night from a visit in Carson. She expects to leave for her home in Spokane Falls, Washington Territory, next Friday.

A Suspicious Looking Transaction.

The California law governing the management of the Yosemite Valley says that there shall be no monopoly in the supplying of those things which are requisite for the accommodation of the public, yet, according to the San Francisco News Letter, the Commissioners have turned over to Messrs. Hoffman & Kenney, for the sum of \$1,200 per year, the privilege of keeping the only livery stable allowed in the valley, and the sole right to furnish visitors with saddle horses and teams. Tourists are not even allowed to bring their own horses into the valley. In its financial aspect, too, the present arrangement smacks of a gross job, continues the News Letter, the purpose of which is to fleece the public and enable the firm in question to acquire a rapid fortune. The rates which this firm is allowed to charge have been fixed by the Commissioners at the maximum figure allowed by the law; so high, in fact, that the firm can clear from \$200 to \$500 per day throughout the season of five months. At a low estimate the firm makes a profit of from \$30,000 to \$50,000 in the season, and as the traffic to the valley is steadily increasing of course the profits are increasing. This profit is preposterously out of proportion; indeed it may be truthfully designated highway robbery. The whole system is wrong.

Heavy Lifters.

A lifting contest took place in Virginia between two herculean miners, one of whom won the contest by lifting 800 pounds. Carson people regard this as no lift at all, and are ready to produce the man who can pick up this 800 pounds and the man who lifted it also. Reno has not paid much attention to the lifting business, but there is a man here whom it is believed can walk off with all the pounds that the Virginia and Carson man can both lift. He has never tried to make a heavy lift, consequently his strength is an unknown quantity. Some years ago when he was a resident of San Francisco an establishment that dealt in second-hand goods took fire, and being near the scene of the conflagration he rushed in to save what he could from the flames. The first thing he discovered was a large, well-filled, double bed-tick. This he shouldered and started for the opposite side of the street. He thought his burden was rather heavy for a bed-tick, but he succeeded in carrying it to a place of safety. Upon investigation he found that the tick was filled with No. 4 shot. The weight was so great that he sank up to his ankles in the solid flag-stone sidewalk. What this man could lift in a pinch is hard to tell.

An Experiment.

The railroad company concluded to try an experiment last Fall in Spring Valley, about ten miles from Reno, and planted some winter grain to determine whether the land could be made to produce this kind of a crop without irrigation. At the present time the grain is looking remarkably well, but it has had everything in its favor. If, however, the experiment proves successful, there is a great amount of land in that vicinity that will become very valuable and a fine farming district opened up. A fine ditch covers this land, but the cost of irrigation is so heavy that the ground cannot be tilled profitably. The soil is said to be excellent, and if the winter grain venture does not pan out, it would be well to bore an experiment artesian well.

The English Mill Property. Says the San Francisco News-Letter of last Saturday:

We learn from the Reno GAZETTE that the English mill property at Reno, consisting of the finest mill-site and water power in the State, has been sold to M. D. Foley, of Eureka, and Bradley & Russell, of Elko. It embraces 600 acres of the most desirable land extending inside the town limits. This valuable property, together with some \$70,000 worth of fallings lying on the ground, was offered last year to some Eastern capitalists for a mere song. The fact, however, that the vendor would make a trifling commission for his time, trouble and expense, broke the trade. Reno is better off as it stands. Short-sighted cormorants who want to "hog it all," are no loss to any community.

A Programme Marked Out.

The Fourth of July Committee of Arrangements has outlined a programme, but it will understand much better how to proceed after the Finance Committee has canvassed the town and reported. If a larger amount is donated than is now anticipated, the programme will be changed in some respects and the ceremonies placed upon a much grander scale.
